Script de la vidéo : Floating Ketchup

Ladies and gentlemen, boys and girls ...Today, I'm going to prove that I can control this ketchup packet with magic, using the power of my mind. I'm going to control the capture : down ... up ... down ... stop ... down ... up ... and that's magic !

This is a really simple trick which will impress all your friends and family. All you need is a clear bottle of water which can fit your hand around it. To begin, simply place a packet of ketchup into the bottle, push it down and then screw the lid of the bottle on tight.Pretend focus on the ketchup with your mind. Put your hand round the bottle. When you want the ketchup to sink, simply say down and squeeze on the bottle.And when you want to make the ketchup float back to the top, release the pressure.This trick is best performed when the bottle is filled right to the top with water. With a little bit of practice, you can say « stop », so the ketchup is floating in mid-water. And that's magic !
